

VIMAGO ESSENTIALS

Learn the fundamentals of Assima's collaborative content authoring platform

This introductory course provides an overview of the Vimago platform as a pre-requisite to follow-on Vimago courses. Participants will learn how to navigate in the various modules, connect with others, import, manage and publish content, and utilise the suite of available reports. Through the use of our virtual training labs, and with personal help and guidance from our certified virtual instructors, participants will be fully prepared for attending Vimago Assist Author or Administrator courses.

YOU WILL LEARN ABOUT

- Vimago basic navigation
- Accessing content in the Library
- Users and roles in the Community
- Vimago licences
- Content & role permissions
- Setting up content structures
- Importing and creating Vimago content
- Publishing content to the Library
- Reporting on content & user activity

COURSE TOPICS

- Getting started with Vimago
- The bigger picture
- Content structures
- Create, import and manage content
- Content & user reporting

COURSE DETAILS
